Executive Summary

GetiDone.com is a merit-based, AI-powered professional and freelance platform designed to connect clients with proven tech and design talent globally. The platform prioritizes execution, trust, fairness, and premium experience, eliminating pay-to-win ranking systems while enabling structured advantages for committed users on both sides of the marketplace.

Platform Integration

GetiDone combines the strengths of a freelance marketplace, a professional network, and intelligent AI systems to create a trusted environment where work history, behavior, and performance define opportunity.

Target launch markets: **USA** **China** **India** **Nigeria**

With a long-term vision of global expansion.

Vision & Mission

► Vision

To become the world's most trusted digital execution network where professional reputation is built on verified results and client confidence is guaranteed.

► Mission

To empower professionals to earn opportunity through performance, while enabling clients to hire with confidence, clarity, and priority access to proven talent through transparent, data-driven systems.

Core Value Proposition

Merit-Based Ranking

No bidding wars. Performance determines success.

Verified Identity

KYC-first approach with verified work history.

AI-Powered

Intelligent matching and reputation scoring.

Professional Network

Social-professional networking for career growth.

Premium Experience

Serious clients deserve serious talent.

Fair Monetization

Revenue without distorting ranking integrity.

If you can deliver quality work, GetiDone will put you in front of the right clients — and if you are a serious client, GetiDone will connect you with proven professionals without stress.

Target Audience

► Primary Markets (in order)

1. United States
2. China
3. India
4. Nigeria

Platform Architecture

GetiDone operates on a **three-layer system**:

Three-Layer Architecture

1. **Merit & Trust Layer** – Determines ranking and credibility
2. **Visibility Layer** – Controls exposure via subscription
3. **Priority Experience Layer** – Enhances workflow for premium users (both clients and freelancers)

Ranking, visibility, and priority experience are intentionally separated to preserve fairness while rewarding commitment.

Merit-Based Ranking System (Done Score™)

The **Done Score™** is GetiDone's proprietary, AI-driven performance metric used to rank professionals across the platform.

► Core Ranking Inputs (AI-Weighted)

- ✓ Customer/Client Reviews (sentiment, depth, and consistency)
- ✓ Verified job completion rate
- ✓ Project complexity vs delivery quality
- ✓ Delivery timeliness
- ✓ Communication responsiveness
- ✓ Professional conduct & dispute history
- ✓ Identity, compliance, and trust score (KYC-based)

Important Rule Done Score™ **cannot** be influenced by payment, subscription, or commission level.

Visibility & Monetization Model

► Core Principles

Ranking is Earned

Based purely on performance metrics.

Visibility is Unlocked

Through subscription tiers.

Priority Experience

Optimized for premium users.

Commission Sustains

Ecosystem funding without bias.

► Visibility Tiers

Free Tier

- Limited profile visibility
- Appears only in high-fit matches
- Standard competition for jobs

Pro Visibility (Subscription)

- Increased exposure within rank tier
- Full AI matching access
- Consistent presence in search and recommendations

Elite Visibility

- Priority rotation within top performers
- Advanced analytics
- Stronger brand positioning

Premium Freelancer Advantage

Premium Client Experience

Paid clients gain access to a curated hiring experience:

- ✓ Access to certified, high-performing freelancers only
- ✓ No need to review multiple proposals
- ✓ No confusion in selecting candidates
- ✓ AI-assisted best-fit selection

Clients experience a "done-for-you" hiring system with confidence and speed.

Client Trust & Behavior Scoring

Clients are also evaluated to maintain platform balance.

▶ Client Score Factors

- Payment reliability
- Communication behavior
- Dispute frequency
- Professional conduct

▶ Client Levels

Standard Client

Basic verified access.

Verified Client

Enhanced trust indicators.

Premium Client

Trusted Client

Advanced Reward System

► High-Value Client Rewards

Clients reaching spending thresholds receive non-cumulative project credits:

EXAMPLE REWARD STRUCTURE

Spend \$5,000

Earn 3–5% project credit (non-cash, platform-bound)

► Freelancer Performance Rewards

Performance Boost Windows

Temporary visibility boosts for high performers.

Commission Rebates

Partial refunds on high-quality jobs.

Direct Job Priority

Increased allocation eligibility.

Trust Badges

Public reliability indicators.

Key Principle Rewards increase earning potential without reducing platform sustainability.

Revenue Simulation (MVP Baseline)

AVERAGE PROJECT VALUE

MONTHLY TOPO

Welcome to GetiDone Technologies

We're excited to have you join us as part of the founding team. This document is designed to give you clarity on your role, responsibilities, expectations, and how you will contribute to building GetiDone into a high-performance global platform.

Who We Are

► Our Mission

At GetiDone, our mission is to build a **performance-driven freelance ecosystem** where trust, accountability, and measurable delivery define success.

We are creating a platform where:

- Freelancers are rewarded based on real performance
- Clients can hire with confidence
- Data drives every major decision

► The Team

You are part of the **core founding technical team**, working alongside:

- Backend Engineers
- Frontend Developers
- Product Leadership
- Future AI/ML Engineers

This is a high-trust, high-impact environment where every contribution directly shapes the product.

Product & Process

► Project Process

Our development approach is structured around:

- MVP-first execution
- Iterative development cycles
- Data-informed decision making

As a Data Analyst, you are responsible for ensuring that:

- All critical data points are captured from day one
- Product decisions are backed by real insights
- System performance is measurable and improvable

► Weekly Meetings

We will operate a weekly sync structure:

- Progress updates
- Data insights review
- Product performance discussions
- Strategic adjustments

You will be expected to present: Key metrics, Observations, Actionable recommendations

How You Will Work With Us

Pre-Deployment (MVP Phase)

- Define required data structures
- Ensure analytics-ready architecture

Data Analyst Role & Responsibilities

► Core Function

You are responsible for transforming system data into **actionable intelligence** that drives:

- Product decisions
- Revenue growth
- Platform trust
- AI development

► Key Responsibilities

1. Marketplace Intelligence Track supply/demand, conversion funnels, drop-offs, high-performing niches	2. Done Score™ Optimization (Critical) Analyze scoring metrics, detect bias/manipulation, recommend improvements
3. Revenue & Monetization Track commission, subscriptions, ARPU, LTV analysis	4. Trust, Risk & Fraud Detect fake reviews, fraud patterns, monitor disputes
5. Growth Analytics Track acquisition, referrals, measure CAC	6. AI Data Support Prepare datasets for AI systems, validate outputs

Key Performance Indicators (KPIs)

You will be evaluated based on:

Marketplace

- Job → Contract Conversion Rate
- Proposal Success Rate

Trust

- Dispute Rate
- Fraud Detection Accuracy

Revenue

- Revenue Growth
- Subscription Conversion Rate

Product

- Done Score Accuracy
- User Retention

Onboarding Tasklist

Week 1

- Understand platform architecture
- Review database structure
- Define key metrics and KPIs
- Align with backend team on data tracking

Week 2

- Design initial dashboards
- Validate Done Score™ logic
